1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 46-90 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. The claims appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors. In several instances claimed elements lack proper antecedent basis. Note that since the numerals in parentheses do not further limit the claims in U.S. practice, the claims should be clear and definite even when read without the benefit of the numerals.

4. Claims 46-90 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
